

The Rainbow Renovators

Teams that have fun together, grow together.
Tight-knit, happy teams are more productive.
This increases staff retention and profits.

A single event is easily forgotten. By engaging in our three-step process we...

1. Introduce participants to new ways of thinking
2. Delve a little deeper to enhance self-awareness and effect real change
3. Lay in new emotional tools that can be used moving forward

Growing emotional savvy is just as important in success as IQ. Colour is known to stimulate brain function. We use our colour alchemy to ignite inspiration which opens the door to learning about ourselves.

The latest research shows that there is a direct correlation between Meta states and Psychoneuroimmunology. PNI is the study of the interaction between psychological processes and the nervous and immune systems of the human body. By improving thinking states of your staff your business will have a decrease in sick days taken by staff.

Did we mention that our process is heaps of fun? We renovate team dynamics using a rainbow of colour. Our Rainbow Process is **so much fun**; it does not feel like work.

Our Rainbow Process includes...

1. You can fall in love with colour
2. Colour Alchemy
3. The pot of gold at the end of the rainbow

Bring a rainbow spectrum of healthy emotions into the Team, take charge and discover your infinite potential.

Previous participants comments:

It has truly been such a pleasure to attend these classes they have been in-valuable.
THANK YOU :-)

Shan Nell
Business owner

I just want to say how enlightening and EMPOWERING your sessions have been for me. Apart from the technical skills I have learned, the life skills I have absorbed are phenomenal, and I do honestly believe the whole experience has been extremely pivotal in my life. Once again, you have given us so much more than what you promised.

Glenne Jeffrey
Business owner

Thanks so much for your time, patience and 'full colour' personality that also made it happen.
